February 2, 2018 – Friday Update

Greetings Sisters and Brothers;

Production Update - FYI: Your leadership has been in constant contact with local management regarding our production schedule. Management has informed us that regular production will resume on Monday, February 5, 2018, at our regular scheduled starting times. If there is any change, we will notify our members as soon as possible. Thank you for your patience and understanding during this unexpected interruption in our production schedule.

BIQ-3: based on our January metric performance, we have been officially recertified as BIQ-3. This follows the GMS calibration we had in December. We have this to build upon and now our focus moves towards BIQ-4. Thanks for all your hard work and dedication for getting us to this stage. Now it's time to drive towards our journey to BIQ-4. Great job team.
