- Bottom of escalator Column Q-20

**Transitioning from DDI to Select Int'l:** As of March 1<sup>st</sup>, as previously announced, GM is moving to a new hourly assessment vendor for Other Than Skilled (production) employees. Select International will be providing the assessment tools and leading the hourly hiring process. The goal is to make the transition as seamless as possible. However, during the first 2 weeks in March, please allow for delays in candidate processing as data is being transitioned from DDI to Select International.

For interested applicants, the new application landing page can be found here: [www.applytogm.com](http://www.applytogm.com)

1. Any candidate that has passed the assessment process will be transferred over to Select
2. Applicants that have applied within the last 12 months will be transferred over to Select
  - a. Once an opening is available, an email will be sent to have the candidates reapply

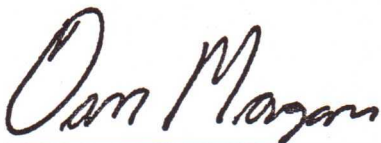

3. Any applicants that have not tested, and applied over 12 months ago will not be transferred
4. Any temporary employees that were released R55, will be placed into the passed assessment pool and transferred to Select.

Once the new call center is up we will share the contact information.

**Safe Driving Tips:**

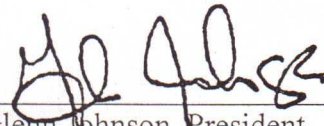

1. Obey all speed limits and signs.
2. Be attentive and drive responsibly.
3. Always wear your seat belts.
4. Always drive with lights on. A vehicle is visible for nearly four times the distance with its lights on
5. When stopping at stop signs, spell S-T-O-P to yourself before proceeding. Always turn your head to look left, then right, straight ahead, then left again before proceeding.
6. Always look out in front of your vehicle to avoid hazards such as water, oil, pot holes.
7. When traveling behind other vehicles, there should be at least a four second space between your vehicles.
8. Don't talk or text on cell phone while driving. Phones detract from your ability to concentrate and increase your chance of a collision by nearly 400%
9. When being approached by an emergency vehicle, pull to the right and wait for emergency vehicle to pass by.
10. Remember as your speed increases so does your braking distance. If you double the weight of your vehicle you double the stopping distance also.
11. The pedestrian ALWAYS has the right of way.

As you can see the rules for inside and outside mobile equipment are the same. Please be safe and drive responsibly.
